Wave City: North India's Techno-Luxury Oasis for smart living

16 Aug 2023 CW Team

Encompassing an expanse of 4200 acres, Wave City stands as the inaugural Hi-tech City in North India, seamlessly merging technological advancements with contemporary Luxuries. Situated adjacent to a 14-lane stretch of National Highway NH-24, this pioneering development represents the largest Pre-Certified Platinum Rated Green Township in the region, advocating for intelligent and sustainable living.

The township presents a comprehensive array of intelligent and ecologically conscious housing options, boasting cutting-edge amenities like the Central Command Centre, Smart Electric Grid, Intelligent Traffic and Transport Management System, Water Management System, Cooking Gas Management, Waste Management, Homeland Security Management, Solid Waste Management, City Portal, Street Light Automation, and Fibre Optic connectivity. Additionally, its strategic location offers convenient access to notable landmarks including the Akshardham Temple, Noida (Sec-62), and the NH24 Expressway.

Wave City has successfully distributed over 11,000 possession letters to its esteemed residential and commercial unit holders. Currently, more than 4000+ families have found their abode within its premises, and a substantial portion of 600 acres has been dedicated to plots, with construction underway for around 500 plots.

Distinguished by its assortment of innovative commercial and residential offerings, all registered under RERA, Wave City encompasses a diverse range of housing options such as apartments (Veridia, Eligo, Dream Homes, Wave Executive Floors, and Swamanorath), independent floors (Wave Floors), and a bustling commercial hub (Wave Galleria). The essence of Wave City lies in its low-density, vibrant, and energetic lifestyle, providing an ideal environment for enjoying comfort, convenience, and a clutter-free way of life.
