Ghaziabad, 03rd June 2025: Hi-Tech World School hosted a cycling event titled Cycle Sprint Showdown at Wave City on the occasion of World Cycle Day. The morning cycling event united young riders in a spirited celebration of energy and enthusism. The event saw enthusiastic participation from children across two age groups—5 to 9 years and 10 to 15 years—competing in exciting 1.6 km and 3 km sprint formats.

The event was part of a broader effort to engage children and families in outdoor activities and create a sense of fun around fitness. The school also offered refreshments for all attendees, medals for every participant, and trophies for winners. Every registered participant received a certificate and free horse riding coupons as part of the celebration.

> Speaking on the occasion, **Mr. C J Singh, COO, Wave City said**, "We at Wave City always look for ways to encourage young minds to step outside the classroom and experience new things. This event helped children interact, compete in a friendly setting, and enjoy the spirit of sportsmanship. Events like these highlight the role of schools in shaping well-rounded individuals by integrating wellness into daily life".

> **He further added,** " Through this event, we aim to create awareness about health & fitness, motivate young cyclists and promote healthy competition and ensure safety among all participants".

Safety was given full importance, as all participants were required to wear safety gear. The event saw enthusiastic support from the local community.

Wave City, known for hosting community-focused activities, offered a fitting venue for the early morning event, set amid its green surroundings and modern urban planning.
